

SUPRABHA SAH

suprabhasah67@gmail.com | +91 9507500718 | Jaipur, Rajasthan | LinkedIn

Summary

Motivated B.Tech third-year IT student passionate about AI/ML, full-stack development, and emerging technologies. Experienced in building intelligent systems, centralized digital platforms, and AI-powered web applications through hackathons and academic projects. Strong problem-solving, teamwork, and continuous learning abilities with hands-on experience in modern development technologies.

Skills

Coursework: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Software Engineering, Operating Systems, AI/ML, Internet and Web Technology, Computer Networks

Programming Languages: C, C++, Python, Java, JavaScript, HTML, CSS

Frameworks & Technologies: React.js, Node.js, Express.js, MongoDB Atlas, FastAPI, PyTorch, Scikit-learn

Tools: Git, GitHub, VS Code, Linux

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Time Management

Projects

- **BanVerse (B.Tech 3rd Year Major Project)** Developing an AI-powered centralized platform for Banasthali Vidyapith to digitalize club management, student engagement, event handling, communication, and certificate management. Implemented personalized club and event recommendations, AI-based student assistant (BanBot), and role-based access for Admins, Club Leaders, and Students using React.js, Node.js, Express.js, MongoDB Atlas, FastAPI, and AI integrations.
- **Grievance AI Intelligent System (Winner – Algobyte Hackathon)** Secured **1st position among 69 teams** by developing an AI-powered grievance management platform focused on complaint categorization, automated workflows, and efficient issue resolution. Built using React (Vite), Node.js, Express.js, MongoDB Atlas, FastAPI, Transformers, PyTorch, Sentence-Transformers, Scikit-learn, Pandas, and NumPy.
- **Neura (Smart India Hackathon 2025)** Conceptualized and developed a smart assistant application selected among the top 40 teams from Banasthali Vidyapith for external evaluation in Smart India Hackathon 2025. Worked with Android Studio, Kotlin, Gradle version catalogs, and scalable mobile application architecture.
- **Reuse and Earn** Developed a responsive online marketplace platform for Banasthali students to buy, sell, and reuse products efficiently, replacing scattered WhatsApp-based trading systems.
- **Ace Your Day** Created an OOP-based C++ application for managing student schedules, to-do lists, meal planning, and course details with integrated engagement features.
- **Portfolio Website** Designed and developed a responsive personal portfolio website showcasing projects, achievements, and technical skills.

Experience

Marketing Intern

Dec 2023 – Jan 2024

Suprabha — Jaipur, India
